Dear XXXXXXXX

**Re: WORKWELL: Testing work advice for people with arthritis**

You very kindly agreed to take part in the WORKWELL Trial. This compares two different ways of providing work advice to see which better helps people with arthritis reduce their work problems or stay in work. We hope that providing the monthly sickness absence information and completing the questionnaires is not proving too much for you. No matter how much you use the work advice, or whether your work problems have improved or not, your contribution remains valuable. We will learn a lot from the information you provide.

This is just a reminder that you are due to complete the second questionnaire in a fortnight's time. This will take you up to 30 minutes to complete. If you indicated that you prefer an online questionnaire, a link will be sent to you by e-mail. If you indicated you preferred a paper questionnaire, this is no longer possible due to COVID-19. We will contact you in a fortnight's time to see if you would be able to complete an online questionnaire or we could collect the information in a telephone call.

If you are to complete the questionnaire online, we would be grateful, when you receive the link, if you would complete the questionnaire and submit it within **two weeks**. [If you need any help or have any queries regarding the questionnaire, please contact us at:](#)

[Data Management Team, Lancashire Clinical Trials Unit, tel: 01772 895541 or 01772 895136.](#)

Again, thank you for continuing to take part. Your help is very much appreciated.

Our very best wishes,
